The initial PSC was effective from 1/15/2022 through 6/30/2022.

Per the solicitation, the Commonwealth reserves the right to renew this contract for up to two (2) additional two year periods.

This contract is being renewed at the completion of the initial contract period for one (1) additional two-year period. This PSC is effective 07/01/2022 and expires 06/30/2024.

RFP 040 2200000122

INITIAL CONTRACT: PON2 040 2200001439 – 01/15/2022-6/30/2022

The Commonwealth and Contractor agree to the following:

**I. Scope of Contract**

The services Contractor performs under this Agreement are intended to be used for lead generation purposes only (“Lead Generation”). As Lead Generation services, they are not intended to replace traditional investigative methods or traditional forensic testing (i.e., STR analysis) which are court-approved methods for positive identification for prosecution purposes. KYOAG will utilize and work collaboratively with Contractor’s Legal Liaison Support division to stay apprised of best-practices, trial strategies and precedents related to Contractor’s Lead Generation services. The aforementioned paragraph does not absolve the Contractor from appearing to testify in court in the event that the Kentucky courts or their designee make such a request by subpoena.

1.--The Contractor shall perform analysis on forensic samples on various sample types utilizing FGG by means of Single Nucleotide Polymorphisms (SNP) and/or Whole Genome Sequencing (WGS). The Commonwealth is seeking to analyze fifty (50) cases utilizing this technology.

	<b>Document Description</b>	<b>Page 4</b>

2.--The Contractor will outsource the forensic DNA extraction process to Marshall University Forensic Science Center (MUFSC) which is ISO/IEC 17025 accredited; MUFSC shall demonstrate compliance with the FBI's Quality Assurance Standards for Forensic DNA Testing Laboratories with adequate experience in forensic DNA analyses for extraction and quantification.

3.--The Contractor shall maintain chain of custody for evidence items for all samples, except for exempted DNA extracts and sample portions.

4.--Following FGG analysis, samples that meet thresholds for FGGS shall be searched utilizing databases including, but not limited to, Family Tree and GEDMatch with subsequent Data Mining and Data Modeling.

5.--Evaluate cases to determine if phenotyping analysis would be beneficial.

6.--The Contractor and its' employees may be required to provide information during investigative stage and/or to serve as an expert or a fact witness in various legal proceedings, including a court of law. These services are to be conducted at the request of and in consultation with the applicable submitting law enforcement agency, commonwealth attorney, KSP-CFL and the KYOAG.

7.--The Contractor shall complete initial analysis within ninety (90) days of submission.

8.--The Contractor shall be staffed by forensic DNA analysts and/or genealogy experts who are available for telephone consultation (including laboratory results) and court (deposition or testimony) as needed in both criminal and civil suits. Payment, fees, scheduling and subpoena deliveries in civil suits will be arranged between private attorneys and the vendor laboratory.

9.--The Contractor shall provide analysis of samples that meets Kentucky Revised Statute 524.140. No sample may be consumed without prior written authorization from the KSP-CFL, which would also include documentation from the agency, counsel, or court.

10.--The Contractor shall allow for outside observation of analyses if it is court ordered that this service is to be provided.

11.--The Contractor shall perform analysis on up to two (2) unknown evidence samples in each case.

12.--The Contractor shall perform analysis of victim reference standard(s) and/or elimination standard(s), if applicable.

13.--The Contractor shall be capable of analyzing evidence within thirty (30) days of any contract award made.

14.--The Contractor shall perform a turn-around time of ninety (90) days for reporting results.

	<b>Document Description</b>	<b>Page 5</b>
<b>2200002651</b>	<b>Outsourcing for Forensic Biology Cases</b>	

15.--The Contractor shall provide formal written reports, which are to be sent in hard copy, along with interpretation and consultation services.

16.--The Contractor shall provide complete case files.

17.--The Contractor's subcontractor, MUFSC, must maintain detailed chain of custody documents related to the traditional forensic extraction, quantification and testing process for court purposes. Duplication of these documents shall be provided at no additional cost to KSP-CFL or the Commonwealth (includes fees for document copying, hard copy or electronic).

18.--The Contractor shall provide data from SNP and/or WGS results to the KSP-CFL for future potential database mining, which would be performed by KSP-CFL or another vendor laboratory subsequent to the contract with this Contractor. 19.--The Contractor agrees to provide consultation, testimony, and travel cost for any admissibilitytype hearing, such as a Daubert Hearing, if precedents related to Lead Generation services are not adopted by the court of jurisdiction for a given case. The aforementioned paragraph does not absolve the Contractor from appearing to testify in court in the event that the Kentucky courts or their designee make such a request by subpoena. 20.--The Contractor agrees to provide testimony and/or documentation in legal action pursuant to the testing completed by the vendor laboratory, if precedents related to Lead Generation services are not adopted by the court of jurisdiction for a given case. The aforementioned paragraph does not absolve the Contractor from appearing to testify in court in the event that the Kentucky courts or their designee make such a request by subpoena.

21.--If precedents related to Lead Generation services are not adopted by the court of jurisdiction for a given case, the Contractor shall assume all consultation and travel costs in providing court testimony to support laboratory results in criminal trials in Kentucky. Testimony shall be provided at no additional cost to the Commonwealth and/or KSP-CFL (includes witness fees). If chain of custody documentation is not stipulated to by the parties, expert witness fees will be capped at a maximum of three (3) persons even if more than three (3) persons are required to testify. However, the aforementioned paragraph does not absolve the Contractor from appearing to testify in court in the event that the Kentucky courts or their designee make such a request by subpoena.

22.--The Contractor shall provide contact information, upon request by the courts, for anyone involved in the chain of custody, analysis, interpretation, or searching that leaves the Contractor's employment.

23.--If applicable, the Contractor shall be responsible for the costs associated with the travel for the initial site visit, annual site visit, and at any other time when a discrepancy is noted by the KSP-CFL or the Commonwealth and that of the vendor laboratory. Expenses shall include airfare, as well as baggage, ground transportation, lodging and meals. These expenses would be for up to two (2) employees of the KSP-CFL. The visits are to ensure that compliance is met for requirements of the Commonwealth of Kentucky.

24.--If the Contractor performs DNA extraction of samples, the Contractor must provide a list of employee STR profiles (electronic .fsa or .hid files are preferred) that would allow for entry into Kentucky State Police Forensic Laboratory's data analysis software. Employee profiles do not

	<b>Document Description</b>	<b>Page 6</b>
<b>2200002651</b>	<b>Outsourcing for Forensic Biology Cases</b>	

require a name identifier. Employee profiles will be used only to ensure there is no employee contamination of the employee profiles generated from samples submitted to the KSPCFL.

25.--If the Contractor performs DNA extraction of samples, the Contractor must provide any DNA extracts in dried form. Each case's extract(s) are to be returned by individual case and with the associated case specific reagent blanks.

26.--The Contractor must provide proper conditions to protect the integrity of all samples. KSP-CFL shall be responsible for all shipping charges of samples to the vendor laboratory. The Contractor shall be responsible for all shipping charges related to the return of evidence to the KSP-CFL.

27.--The Contractor shall maintain and provide a billing system outlining the cost of each analysis as well as database searches per case.

28.--The Contractor shall provide copies (electronic) of protocols and/or validations used on samples submitted by KSP-CFL at the start of the contract and for subsequent revisions.

29.--If the Contractor performs DNA extraction of samples, vendor laboratory must provide documentation of proficiency testing for analysts performing testing on samples submitted by the KSP-CFL upon request.

30.--If applicable, when the Contractor performs any DNA extraction of samples, the Contractor must receive advance approval, in writing, from the DNA Technical Leader with the KSP-CFL prior to introducing any newly validated procedure not mentioned above or made available at the time of award. a.--The newly validated procedure may be added and used if reviewed and approved, in advance, by the DNA Technical Leader with the KSPCFL should a contract be awarded.

31.--Subcontracting by the Contractor for DNA extraction of samples shall be approved by the KSP-CFL DNA Technical Leader in advance of any DNA extraction.

The Contractor shall, on an as needed basis and in the discretion of the Office of the Attorney General, provide forensic biology services. The execution of this contract is neither a guarantee of work nor a guarantee that the Contractor will be assigned any current or future claims or cases.
