

## Goal of the Training

The members of the Kentucky River Council Against Maltreatment of Elders invite you to attend the Aging Issues Awareness Conference on March 20, 2025. The goal of this training is to educate all professionals on issues surrounding the elderly population and create awareness of elder abuse. The council members believe by working together as a unified force we can create great awareness and knowledge of the issues many elderly in our area face.

# ANNUAL KY RIVER AGING ISSUES AWARENESS CONFERENCE 2025
